

THERMOCASE

for Broadway 3D BR

PROTECTION

Thermocase by Artec Group is designed to protect a built in Broadway 3D face recognition system from negative environmental impact: high and low temperatures, dust, and moisture.

Features:

- Complete integrated and ready-to-install solution
- Maintains recommended operating temperature for Broadway 3D: a heating element heats Thermocase inside in cold weather, and air conditioning equipment prevents overheating
- Provides a high level of protection for Broadway 3D system from dust, moisture, water splashes

Specifications:

- Operating temperature: -40°C to +50°C
- Dimensions (HxWxD) 625mm x 300mm x 334mm
- Power supply 100-240 VAC
- IP 55
- Material: steel
- Weight: 23 kg
- Wall-mounted

A tent is required to prevent sunlight influence on recognition session.
